

# LABQUALITY Express

## 3/2008

### **About faxes**

We daily receive blank faxes, half readable faxes and totally unreadable faxes... and we would like to return the message back to the sender. But sometimes we cannot because the sender's number is not included in the message.

In case of errors mentioned above, please check that your correct fax number (sender's number) will be automatically added to the faxes you send us. Thank you!

### **Orders for 2009**

The ordering period for 2009 EQA services is now actual. Please leave your order to our local distributor in your country, or if you are our direct client, fill in the order form at our Internet service channel. Don't hesitate to contact your local distributor or our client services office in any problems:

email: [info@labquality.fi](mailto:info@labquality.fi)  
tel +358 9 8566 8244.

### **Certificate of participation**

In the beginning of December, free general certificate 2008 is available at Labquality's Client Services Channel at Internet. Just log in and choose "General certificate", and print it. It is still possible to check your laboratory's name to be written in the certificate at "Updating of contact details".

### **Labquality Days 2009**

This is the first announcement of Labquality Days on February 5—6, 2009.

The programme, prices and hotel information will be published and sent to clients in November. It will also be presented and updated at [www.labquality.fi](http://www.labquality.fi).

You are welcome to meet colleagues and new friends in Helsinki, Marina Congress Center.
